

Notes

Figures are indicated with **(fig)** and tables with **(table)**.

A

A bands, 53, 287
 Abdomen, 11, 539, 542 (fig), 664, 669
 Abdominal press, 225, 259
 Abdominal thrust maneuver, 569–70
 Abduction and adduction, 191, 212
 ABO blood type (groups), 447, 456
 Abortions, 653, 696, 698 (table)
 Abrasions, 86
 Absorption, 515
 Accidents, cerebrovascular (CVA, “strokes”), 332
 Accommodation, 379
 “Achilles” tendon, calcanean, 257, 272
 Acinar (alveolar), 58
 Acini, 57
 Acromegaly, 115
 Actin, 287
 Active transport, 27
 Adenohypophysis, 585
 Adenomycosis, 653
 Adolescence, 687, 698
 Adrenal cortex, 584
 Adulthood, 698
 Agglutination, 447, 456
 Agonist, 257
 Agranulocytes, 448, 452
 Air-blood-barrier, 553
 Albumins, 452
 Alimentary canal, 515, 517, 519 (fig)
 Alimentary system (*see* digestive system)
 Allantois, 695
 Alveolar duct, 563 (fig)
 Alveoli
 dental, 168
 function of, 57
 of the maxilla, 166
 pulmonary, 554, 563 (fig)
 Alzheimer’s disease, 333
 Amelia, 114
 Amenorrhea, 643, 652
 Amnesia, 332
 Amniocentesis, 698–99
 Amnion, 695
 Anal canal, 515, 535, 537 (fig)
 Anal region, 669
 Anaphase, 37
 Anatomic dead space, 553
 Anatomic nomenclature, 5–6

Anatomic position, normal (NAP), 2, 6, 7 (fig)
 “Anatomic snuffbox,” 671
 Anatomy, 3, 3 (table), 4 (table)
 Anemia, 448, 449, 458, 459 (table)
 Ankle, 14
 Ankylosis, 214
 Anomalous conditions, 114
 ANS (*see* nervous system, automatic)
 Antagonists, 257, 259
 Antebrachial interosseous membrane, 200
 Anterior, definition of, 8
 Antibody-mediated immunity, 452
 Anticoagulants, 448, 456, 457
 Antihelix and antitragus, 406
 Anulus fibrosus of the intervertebral disc, 210
 Anus, 535, 537 (fig)
 Aorta
 ascending, 474
 branches of, 475 (fig), 476 (table), 479–80
 definition of, 467
 descending, 479
 function of, 433
 systemic arteries and, 474
 Aortic
 arch, 474
 bifurcation, 479
 hiatus of the diaphragm, 565
 valve, 433
 Apocrine secretion, 50, 58
 Aponeuroses, 225, 227
 Appendicitis, 543
 Appendix, vermiform, 516, 534
 Aqueous humor, 379, 385
 Arachnoid granulations, 330 (fig), 332
 Arachnoid mater and trabeculae, 331
 Arbor vitae of the cerebellum, 325
 Areola of the breast, 84
 Arm, 13
 Armpit, 669
 Arneith count, 457
 Arterial pressure, 490
 Arteries
 arcuate, 609
 axillary, 476
 basilar, 474
 brachial, 476
 carotid, 474
 common hepatic, 479
 coronary, 474
 definition of, 467
 elastic, 468–69
 femoral, 480

-
- Arteries (*continued*)
 function of, 426, 468–69
 gastric, 479
 iliac, 480
 on the inferior aspect of the brain, 477 (fig)
 of the inferior limb, 482 (fig)
 interlobar and interlobular, 609
 lumbar, 480
 median sacral, 480
 mesenteric, 480
 muscular, 469
 ovarian, 480
 popliteal, 480
 posterior intercostal, 479
 proper hepatic, 479
 radial, 476
 renal, 480
 splenic, 480
 subclavian, 474, 476
 of the superior limb, 478 (fig)
 systemic, 474–81
 testicular, 480
 tibial, 480
 trunk (vascular), 468
 ulnar, 476
 umbilical, 468, 488
 vertebral, 474
- Arterioles, 426, 469
- Arthritis and arthrocentesis, 213
- Arthroscopy and athrotomy, 213
- Articular cavity, 196
- Aryepiglottic fold, 560
- Ascending fiber tract, 315
- Asthma, 570
- Astigmatism, 392
- Astrocytes, 60, 317
- Atlas (C1), 153
- Atrioventricular
 bundle, 434
 node, 425, 434
 right, 431
 valves, 425, 433
- Atrophy, 40, 245, 257, 304
- Audition, equilibrium and, 413–14
- Auditory ossicles, 403, 408–9, 409 (fig)
- Auditory tube, 403, 408
- Auricle, 406, 406 (fig)
- Auscultation, 3
- Avulsions, 86
- Axilla (axillary region, axillary fossa), 663, 669
- Axillary lines, 675
- Axis (C2), 153
- Axons, 59, 315, 317
- B**
- B lymphocytes, 452, 499
- Back, 11, 671, 672 (fig)
- Balanitis, 635
- “Ball of foot,” 675
- Basal layer, 79
- Basale, stratum, 78
- Basement membrane, 55
- Basilar membrane, 412
- Basophils, 448, 452
- Bell’s palsy, 364
- “Bends, the,” 458–59, 571
- Bicipital aponeurosis, 233
- Bicipital grooves, 671
- Bile canaliculi, 515
- Bile duct, 536
- Biopsy, 67
- Birth control, 691–92, 693 (table)
- Bladder, urinary, 602, 611, 611 (fig)
- Blastocyst, 687
- Blind border of the nail, 85
- Blindness, 392
- Blood
 arterial, 448
 cells, 448, 451
 coagulation, 453–56
 composition of, 449, 450 (fig)
 as connective tissue, 426
 corpuscles (RBC’s), 448
 definition of, 50
 distribution in the cardiovascular system, 472 (fig)
 donors, 458
 formed elements of, 449, 455 (fig)
 functions of, 65, 449
 occult, 448
 plasma, 65, 448, 449, 452–53
 pressure, 467, 489, 490
 serum, 448
 sludged, 448
 types (groups), 447, 456–57, 457 (table)
 venous, 449
 vessels, 468–70
 whole human, 449
- Blood count, complete (CBC), 457
- Blood USP, whole, 449
- Body, major regional parts of, 10–14
- Bone marrow, 50, 65, 454 (fig)
- Bone tissue, 50, 63, 98–100, 127, 128

Fundamental Concepts of Human Anatomy

Index

- Lumbar region and triangle, 671
Lumbosacral plexus, 346, 357, 358 (fig)
Lumen, 2
Lung capacity, 554
Lungs (*see also* pulmonary), 561–63, 564 (fig)
Lunula of the nail, 85
Luxation (dislocation), 192, 213
Lymph, 499, 501
Lymph nodes, 499, 503, 503 (fig)
Lymphadenitis and lymphangitis, 507
Lymphatic
 duct, 500, 501
 nodule, 499
 system, 16, 500
 trunk, 499
 vessels and organs, 501–6
 vessels (major), 502 (fig)
Lymphoblasts, 453
Lymphocytes, 448, 452
Lymphoma, 507
Lysosomes, 35
- M**
M line, 53, 288
Macromolecules, biological, 1, 29
Macrophages, 452
Macula, 404
Malocclusion, 543
Mamillary bodies, 325
Mammary papilla (nipple), 84
Mammary region, 669
Mamillary line, 675
Marrow, 50, 65, 454 (fig)
Mastoid wall of the tympanic cavity, 408
McBurney's point, 543
Mechanoreceptors, 359
Medial, definition of, 8
“Median crease,” 673
Median line, 675
Mediastinum, 554, 565–66, 567 (fig)
Medulla (hair), 82
Medulla oblongata, 327
Medulla of the adrenal gland, 588
Medullary cavity, 98, 100
Megakaryoblasts, 453
Megakaryocytes, 452
Meiosis (*see also* mitosis), 28, 38 (fig), 38–40, 39 (fig), 39 (table)
Melanin, 78
Membrane, tectorial, 412
Membranes, extraembryonic, 695 (fig), 695–96
Membranous labyrinth, 404, 410 (fig), 411, 412 (table)
Membranous wall of the tympanic cavity, 408
Menarche, 644, 652
Meningitis, 333
Meninx (pl. meninges), 316, 330 (fig), 330–31
Menisci, 198, 198 (fig), 204
Menopause, 644, 650
Menorrhagia, 653
Menstrual phase, 651 (fig), 651–52
Mental illness, 332–33
Mental region, 667
Mentolabial groove, 667
Merocrine (eccrine) secretion, 58
Merocrine sweat glands, 83
Mesencephalic aqueduct, 325
Mesencephalon, 320, 325
Mesenchyme (primitive connective tissue), 50, 66
Mesentery, 539
Mesocolon, 541
Mesoderm, 51, 693
Mesometrium/mesosalpinx/mesovarium, 648
Metabolic disorders, 115
Metabolism, inborn errors of, 40
Metacarpus, 13
Metamerism, 10
Metaphase, 37
Metaphyses, 101, 128, 139
Metaplasia, 40
Metatarsus, 14, 674
Metencephalon, 320
Metrorrhagia, 653
Microfibrils and microfilaments, 36
Microglia, 60, 317
Micromelia, 114
Microvilli, 30
Micturition (urination), 602
Midbrain, 325
Midclavicular line, 675
Middle, definition of, 9
Miscarriages, 696
Mitochondria, 35
Mitosis (*see also* meiosis), 28, 36, 37 (fig), 39 (table)
Mitral valve, 433
Monoblasts, 453
Monochromats, 392
Monocytes, 448, 452
Monosomy, 40
Monosynaptic, 364
Mons pubis, 648
Morphology, 2, 9–10
Morula, 688
Motor (autonomic) ganglion, 346
Motor unit, 258, 259

Fundamental Concepts of Human Anatomy

Index

- Testes (*continued*)
rete, 624
sectioned, 627 (fig)
vaginal tunic of the, 624, 633
- Testicular torsion, 635
- Tetralogy of Fallot, 438
- Thalamus, 325
- “Thenar crease,” 673
- Thenar (thenar eminence), 673
- Thermoreceptors, 359
- Thigh, 14

- Valvular stenosis, 426
- Varicocele, 635
- “Vas” deferens, ductus, 623
- Vasa vasorum, 468
- Vasectomy, 625
- VE (*see under* neurons)
- Veins (*see also* vena cava)
 azygos, 482
 basilic, 483
 brachiocephalic, 481
 cephalic, 483
 cubital, 483
 definition of, 468
 dorsal metacarpal, 483
 dorsal metatarsal, 483
 function of, 426, 469
 great saphenous, 483
 hepatic, 483
 hepatic portal, 483, 485 (fig)
 iliac, 482
 of the inferior limb, 487 (fig)
 interlobular, 609
 jugular, 481, 483
 splenic, 483
 subclavian, 481
 of the superior limb, 486 (fig)
 superior mesenteric, 483
 systemic, 481–87
 of the trunk, 484 (fig)
 umbilical, 468, 489
 valves of, 469
- Vena cava (*see also* veins), 429, 468, 481, 482
- Venous return, assisting, 259
- Ventral, definition of, 8
- Ventricles (*see under* brain; heart)
- Venules, 426, 469
- Vertebra, features of, 169
- Vertebral column
 arch of, 169
 articular processes of a vertebra and, 169
 atlas (C1) of, 171
 axis (C2) of, 172
 body of, 169
 canal of, 169
 cervical vertebrae of, 171, 171 (fig)
 coccygeal bone of, 174
 coccyx of, 173 (fig), 174
 Cy1–Cy4 of, 174
 definition of, 154
 foramen of, 169
 human vertebral formula and, 174
 intervertebral foramina of, 169
 lateral aspect of, 170 (fig)
 lumbar vertebrae of, 172 (fig), 172–73
 notches of, 169
 prominent vertebra of, 171
 sacral bone of, 173 (fig), 173–74
 sacral vertebrae of, 173
 spinal cord and, 329 (fig)
 spinous process of, 169
 thoracic vertebrae of, 172, 172 (fig), 209 (fig)
 transverse process of a vertebra and, 169
